

## Custom Cabinet Manufacturer NVC2109

The Company specializes in designing, manufacturing and installing high quality custom cabinets and other architectural components for commercial, residential and medical settings. With an emphasis on using the finest hardwoods, and other architecturally specified materials, the Company's team of skilled craftsmen uses a combination of precision CAD routers, automated edgebanders, and new paint booths which provide genuine quality that is only exemplified through the experienced and talented team. In addition to providing both laminate and wood cabinets, the Company designs and installs custom countertops. To accommodate today's most demanding customer in terms of quality, prompt delivery and exceptional value, the Company's repeatable systems enable the Company to exceed customer's expectations with consistency.

Over the years, the Company has experienced continued significant growth as its revenue is expected to exceed \$2.0 million with an impressive EBITDA. The Company's broad diversification of products and industries served has enabled the company to greatly expand its market share. The Company is well-poised for continued sustainable growth.
