

Landscape & Horticultural Services Company NVC2075

The Company is a full service landscape and horticultural company specializing in landscape design & installation, irrigation, lawn care, beneficial maintenance services, excavation and snow plowing to both private residences and commercial businesses. The most effective and efficient methods and equipment are utilized. With a proven track record of many decades of industry experience, the Company has developed an excellent reputation for creative, premier-quality workmanship, dedication, hands-on project and site management, as well as long-time customer relationships.

The Company has experienced steady and consistent growth with revenue of less than \$5 million and an impressive EBITDA of more than \$500,000. With the Company's broad diversification of services, it is well-poised for continued growth.

INVESTMENT HIGHLIGHTS

Expert Designers – The Company's team is comprised of highly talented knowledgeable designers with experience in a wide range of project types. It takes tremendous pride in its work and is committed to excellence in design and installation.

Customized Service Availability – The Company offers a wide variety of options and the highest quality materials and services. To meet the customers' unique needs, it offers consultations for customized designs and services.

Customer Satisfaction – The Company's commitment to excellence, attention to detail, and competitive pricing, as well as its confident, efficient, customer-orientated support staff, has lead to its excellent reputation.

Inventory Management - The Company's landscape inventory is very controlled and efficient. Job scheduling and inventory is well-managed so as to make the best use of facility space, as well as increase profits.

GROWTH OPPORTUNITIES

Go "Green" – As more consumers take pride in making every effort to protect the environment, there is significant opportunity to expand the Company's "Green" offerings with acquiring LEED certification. Renewable, recycled and water efficient landscapes, as well as waste-free installations, native plantings and environmental-oriented designs are some of the tools now used to address this interest and could be growth areas.

Marketing – The Company has a marketing strategy, which includes an attractive and easy to navigate website, newspaper advertisements, and radio spots. Additionally, the Company's building and property allows it to showcase its talent and products. A more robust Internet presence that is enhanced by web marketing, e-brochures, and search engine optimization (SEO) could be beneficial.
